Week 2: Python brush-up

Anders Roy

Plan

- Today: Basic python constructs
- Next Tuesday:
    - A few Python modules
    - First mandatory assignment

Differences to Java/C++

- No semicolons and curly brackets
- Indentation matters
- Weakly typed
- (Normally) interpreted instead of compiled

Python walkthrough

Time to Work

- Final questions?
- Todays weekplan is on the website
- Go to 303A center area as first choice then 306 1st floor west-side area (lastly, stay in here if no space left)
